SANITISATION AND TEMPERATURE PRODUCTS

Techhealth
Australian Innovation since 2010

LEADING THE WAY TO HELP CURB THE PANDEMIC

www.techhealth.com.au

TECHHEALTH = HYGIENE + INNOVATION

Techhealth is a company that strives to create the most innovative health products and endeavours to be up to date with the latest technologies. Our products and focus centre around science, technology, innovation, accuracy and precision. We're the partners of industry-leading products Techsan and SANI-99™, the environmentally-friendly hand sanitising unit and alcohol-free, **powder-based disinfectant**. As the disinfectant is in powder form. You only need **ONE BOTTLE/ CONTAINER FOR LIFE. DO IT YOURSELF REFILLING.**

Sanitisation is quickly becoming the new norm. This means a new expense for many businesses already struggling with the effects of COVID-19.

Techhealth has a large range of products that can be used in conjunction with one another or stand alone. Our products have been developed with life cycle costs in mind, so they stay affordable for the life of the product and are the most effective way to offer sanitisation in schools, retail outlets, eateries, offices and more.
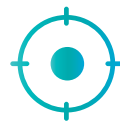

RELIABLE
You can trust us to create products that are safe and effective.

RESPONSIBLE
We take our corporate responsibility towards the environment and to our customers very seriously.

PRECISE
We're perfectionists, and pride ourselves on our attention to detail.

INNOVATIVE
Innovation is at the forefront of our mission.
